premium collection 2021

glamorous elegance

Three gorgeous decors. One beautiful helmet. The extraordinary designs of the uvex suxceed premium collection with its crystal embellishments is the result of the successful cooperation with Swarovski®.

Inspired by patterns from the fashion scene, the three eye-catchers were created to give every outfit stylish elegance. Available in the classic colors black and navy, the top-class dressage riding helmets are perfect for the big show.

uvex suxceed jewel

The most royal combination of the uvex portfolio: a precious rose-gold finish within the shiny chrome frame and matching Swarovski® crystals meet silky satin in navy. The new uvex suxceed jewel features the finest, precisely-cut crystals that are combined with mirror-smooth rose-gold chrome. Made by hand, piece by piece, the iridescent crystals shimmer in a completely new dimension.

uvex suxceed flash

Like a starry night sky, the unique design of the uvex suxceed flash showcases a cascade of over 1,000 Swarovski® crystals on an elegant, silk-matt satin cover. The frame's piano lacquer oscillates to match either the night blue or the black color variant.

uvex suxceed delight

With its aesthetically reduced, extremely elegant decor that is no less exclusive, the uvex suxceed delight shines bright like a diamond. The combination of the exquisite, shimmery chrome frame and the Swarovski® crystals that are arranged in fine lines on high-quality satin creates a uniquely timeless look.

premium collection 2021

dignified elegance

Classic elegance. Sporty, clean design. The two new classics in the uvex premium collection are perfect for all ambitious riders, who seek first-class quality and a timeless look.

The new uvex suxceed pro features a butter-soft, vegan leather cover together with high-gloss surfaces that are made to impress: the mirror-like chrome frame reflects the light in an unusual way and shines like liquid platinum.

A matt helmet shell with innovative high-tech features meets great craftsmanship: the new uvex perfexxion II chrome delights with sparkling effects and is made for the needs and requirements of demanding equestrian sports.

uvex suxceed pro

Black is back. Precious, smooth surfaces – shiny chrome. The new uvex suxceed pro combines high-quality, matt black synthetic leather with elegant effects thanks to the brilliant shine of the premium chrome frame: The epitome of pure elegance.

uvex perfexxion II chrome

Made for the highest demands. The new, elegant uvex perfexxion II chrome combines a matt helmet shell with the unique pentagon dynamic ventilation system: the chrome-plated ventilation grille creates a radiant contrast and sets sporty accents. The high-quality strap covers and piping made of synthetic leather and the breathable supersoft micro-sense interior are convincing across the board.

uvex suxceed jewel new

Part of the successful uvex suxceed helmet series

Showcasing precious Swarovski® crystals and a matching, shiny chrome-plated frame
